## MEMORANDUM

TO WHOM IT MAY CONCERN:

After extensive testing, Acid Piping Technology, Inc., the manufacturer of Mondri piping systems, approves and recommends the use of Durlon 9000 one piece step gaskets (non glued) for sealing our pipe flanges used in 92% to 99% sulfuric acid services at temperatures up to 300 degrees F (149 C).

Respectfully,

Ed Knoll  
President – Acid Piping Technology, Inc
